HOWARD — To all the people of Howard and surrounding area:

I have been meaning to write this letter for some time now but haven't taken the time because I keep making new discoveries in this town and just didn't know if I had come to the end of what advantages you have living here in Howard!

My wife and I moved to Howard in July of last year while some people kept asking "Why Howard?" At first I answered because it had the church that we attended and clinic and doctor facilities.

I must tell you ever since I have found more and more reasons why we like Howard. I will name some of the many reasons why it has been a more logical choice—hoping I don't leave out any of the conveniences that are right here at our fingertips—pharmacy, dental facilities, chiropractor, grocery store, restaurants, gas stations, lumber yard, lawyers, auto supply house, trucking facilities, beauty operators, day care providers, a local bank, farm government office, housing facilities, nursing home, an American Legion club, a locker plant, electricians, plumbing and heating facilities, a funeral home, mower and equipment repair shop, an employer of consequence with a new facility to open up soon.

I certainly apologize if I have missed anything, but the point I was trying to make is that Howard has so many reasons to the question "Why Howard?" It meets the needs of every day living and that is what is important!
